

2018/19 CURRENT WORK IN BEHAVIOR, GENETICS, AND NEUROSCIENCE

Department of Psychology

Department of Molecular, Cellular and Developmental Biology

FRIDAYS, 11:35-12:50PM | KIRTLAND 207

FALL '18

9/21/18 **Wei Ji Ma, PhD**

“Probabilities in the brain” [11:30AM]

Special Seminar: “Growing up in Science” [12:45 PM]

Associate Professor

New York University

10/12/18 **Jessica Cardin, PhD**

“State-dependent cortical circuits”

Associate Professor

Yale University of Medicine

11/2/18 **Mark Cookson, PhD**

“Pathways to Parkinsonism”

Chief, Cell Biology & Gene Expression Section

National Institute on Aging

11/16/18 **Byron Yu, PhD**

“Brain-computer interfaces for basic science”

Gerard G. Elia Career Development Professor

Electrical, Computer and Biomedical Engineering

Carnegie Mellon University

SPRING '19

1/25/19 **Nicole Rust, PhD**

TBC

Associate Professor

University of Pennsylvania

2/15/19 **Winrich Freiwald, PhD**

TBC

Professor

The Rockefeller University

3/1/19 **Steve McCarroll, PhD**

“What can single-cell analysis teach us about disorders of the human brain?”

Dorothy & Milton Flier Professor

Biomedical Science & Genetics

Broad Institute / Harvard Medical School

3/29/19 **Elisabeth Murray, PhD**

TBC

Chief, Neurobiology of Learning & Memory Section

National Institute of Mental Health

4/26/19 **Kazuhisa Shibata, PhD**

TBC

Associate Professor

Nagoya University
